

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. ## THE STATE BOARD OF CHARITIES.

---

The State Board of Charities was created in 1867, and became a constitutional body January 1, 1895, under the provisions of article VIII of the Constitution of the State of New York, which was adopted in 1894. This article of the Constitution provides that the State Board of Charities shall visit and inspect all institutions, whether State, county, municipal, incorporated or unincorporated, which are of a charitable, eleemosynary, correctional or reformatory character, including institutions for epileptics and idiots, and all reformatories (save those in which adult males convicted of felony shall be confined), and excepting institutions for the care and treatment of the insane, and for the detention of sane adults charged with or convicted of crime, or detained as witnesses or debtors.

The Constitution also provides that the members of the Board shall be appointed by the Governor, by and with the advice and consent of the Senate, that all the existing laws relating to institutions above mentioned, and to their supervision and inspection, in so far as such laws are not inconsistent with the provisions of the Constitution, shall remain in force, and that the Legislature may confer upon the Board additional powers. It further provides that while payments by counties, cities, towns and villages to charitable, eleemosynary, correctional or reformatory institutions, wholly or partly under private control, for care, support and maintenance, may be authorized but shall not be required by the Legislature, no such payments shall be made for inmates of such institutions who are not received and retained therein pursuant to rules made by the State Board of Charities.

The Board is composed of twelve Commissioners, one from each of the nine judicial districts of the State, and three additional members from the city of New York. They are appointed for terms of eight years and are required to reside in the districts and city from which they are respectively appointed. The President and Vice-President of the Board are elected annually from its members. No Commissioner, while a member of the Board, can

act as a trustee, director or other administrative officer of any institution subject to the visitation and inspection of the State Board of Charities.

Each Commissioner is paid actual expenses necessarily incurred while engaged in the performance of the duties of his office, and receives, as compensation, \$10 for each day's attendance at meetings of the Board, or of any of its committees, not exceeding in any one year the sum of \$500.

The principal duties of the Board are to visit, inspect and maintain a general supervision of all institutions, societies or associations which are of a charitable, eleemosynary or correctional character, whether State or municipal, incorporated or unincorporated, made subject to its supervision by the Constitution and the statutes of the State. Other duties are to establish rules for the reception and retention of inmates, to approve or disapprove the organization and incorporation of all institutions which are or may become subject to the supervision of the Board, to license dispensaries, supervise the placing out of dependent children, secure the just, humane and economic administration of all institutions subject to its supervision; advise the officers of such institutions in the performance of their official duties; aid in securing the erection of suitable buildings for the accommodation of inmates in such institutions; aid in securing the best sanitary condition of the buildings and grounds of all such institutions, and advise measures for the protection and preservation of the health of the inmates; aid in securing the establishment and maintenance of such industrial, educational and moral training in institutions having the care of children as is best suited for inmates; investigate the condition of the poor seeking public aid and advise measures for their relief; administer the laws providing for the care, support and removal of State, nonresident and alien poor, and the support of Indian poor persons; collect statistical information in respect to the property, receipts and expenditures of all institutions, societies and associations subject to its supervision, and the number and condition of the inmates thereof, as also of the poor seeking temporary public relief.

The Board is required to report to the Legislature annually. Its seal is the arms of the State surrounded by the inscription, "State of New York — The State Board of Charities."

NOTE.—The information given in this directory of charitable departments, institutions, societies and associations is gathered mainly from reports filed with the Board by the officers of such departments, institutions, societies and associations.

The \* used in connection with dispensaries indicates that no report is required because no public money is received; but, because of the license granted by this Board, they are subject to inspection and the data used is secured from the reports of the inspectors.
